Take parte de un concepto de estilo minimalista inspirado en los cortes tradicionales del bambú, un juego de volúmenes asimétricos alternados a distintas alturas y distintas direcciones, un producto de líneas puras diseñado para ser el protagonista y no pasar desapercibido. La idea inicial nace de la observación de elementos naturales y su proceso de fabricación tradicional, el bambú como elemento natural trasladado a un objeto de decoración. Su volumen general está estudiado de tal forma que permite la difusión de la luz en distintas direcciones con la posibilidad de configurar el foco de luz donde se desee. La colección está fabricada en tubo metálico e incorpora como fuente de luz la tecnología LED, permitiendo un alto rendimiento con un consumo eficiente.
